

A I R B U S

With a range of 4500 miles this Corporate Jetliner makes crossing the globe something to look forward to. Such is the level of space and comfort.

A Corporate Jetliner to make short work of long-hauls

Your personal Airbus awaits.  
Inside you enter a world of luxury.

The Airbus 319CJ can whisk up to 34 passengers in spacious luxury, effortlessly from continent to continent.

Every feature on this long-range Jetliner is designed to make your journey as relaxed and comfortable as possible.

**Your Corporate Jetliner awaits you.**

The  
ultimate  
private  
Jetliner.

The luxury of space.  
A place for peace and privacy.

The Airbus 319CJ brings new meaning to the phrase 'space travel'. It has the widest cabin in its class (almost twice as wide as a standard business jet).

And when you're travelling in the Airbus you can stand tall. It has the highest ceiling in the market. 7.4ft. That's full standing height everywhere in the aircraft.

**Stand up. Stretch out. Savour the space.**

Forward cabin guarantees complete privacy and includes a

Sumptuous space for the most demanding traveller.

- A mobile head office.**
- A meeting room.**
- A presentation theatre.**

Or just somewhere to relax and unwind between important engagements. The airbus can be arranged to suit all these needs.

Ideal for VIPs, heads-of-state, rock groups or sports teams, the three separate cabins offer unrivalled flexibility and privacy. Even the galley would please the most demanding of in-flight chefs.

Large and spacious lounge.

Everything you need at your fingertips.

High-tech for high-flyers.  
And lots of leg room for long-haul.

The very latest seat-back entertainment system.

In the aft cabin you can enjoy the most advanced in-flight entertainment technology.

There are 24 luxurious lie-flat reclining seats and premium entertainment systems for your enjoyment. The consoles also house power points for your laptop and other electrical devices.

And you don't have to leave anyone or anything behind. The airbus's underfloor cargo holds four times the volume of a typical business jet.

**Lie back, tune in, and let the time fly by.**

Every passenger has more than enough leg room.

# A truly versatile layout allows variety of uses.
